FILL IN THE BLANKS (TYPE IN) - 2题

1. Marie Curie #141062 极高频 今日预测

My hero is Marie Curie. She was a Polish physicist and chemist working in France, and she did **conduct** pioneering research on radioactivity. She was also the first woman who won a Nobel prize. Marie Curie is my hero because she showed a lot of **determination** in following her career path and her **passions**. She also showed a lot of **patience** in working for years to receive results from her experiments. And Marie Curie, she designed and built the first **mobile** X-Ray machines. She worked on the front lines of the first World War along with her daughter saving soldiers.

2. Neo-Latin #141066 极高频 今日预测

Those of you who've never heard the term neo-Latin, may be forgiven for thinking it's a new South American dance craze. If you're **puzzled** when I tell you it has something to do with the language of Romans, take heart, over the years many classes who have **confessed** they are not really sure what it is either. Some have **assumed** that they are so-called 'Late-Latin', written at the end of the Roman Empire. Others have supposed it must have something to do with the middle ages. Or perhaps it's that **pseudo-Latin** which my five and seven-year-old boys seem to have **gleaned** from the Harry Potter books, useful for spells and curses that they zip one another with makeshift paper ash ones. No, in fact, neo-Latin is more or less the same as the Latin that was written in the **ancient** world, classical Latin. So, what's so new about it?
